

## THE CATHOLIC PARLIAMENTARY LIAISON OFFICE

In collaboration with

## Southern African Faith Communities Environment Institute

Cordially invites you to participate in a Seminar on

### ***Faith Communities: Reflecting on our Relationship with the Living Earth***

*Responsible use and protection of natural resources is everyone's responsibility. The globe is warming up; both animal and plants species are becoming more and more extinct; the soil is degraded and water resources are polluted and dried out. This has a direct effect on spiritual imbalance, considering that as natural- beings we are an integral part of the planet. How have you contributed towards this dilemma; and most importantly how do you plan on resolving it for present and future generations?*
